ABOUT
IIT KANPUR

Indian Institute of Technology Kanpur, established in 1959, is one of India's premier institutions for technical education and research. With over six decades of excellence, IIT Kanpur has been a leader in innovation, cutting-edge research, and technology development, nurturing future leaders and problem solvers. Its commitment to academic excellence, entrepreneurship, and societal impact continues to shape the future.

Vision: To create, disseminate, and translate knowledge in science, engineering, and allied disciplines for the benefit of society.

Mission: To achieve excellence in education, research, and innovation through creative learning, sustainable research, strong academia–industry collaboration, entrepreneurship, ethical leadership, and a commitment to societal development.

KEY HIGHLIGHTS

Established in
1959
by the Government of India

Among the
Top IITS
in the Country

2000+
Research Publications (Annual)

Diverse and vibrant student community from across India and the world

Home to one of India's
Top Startup Incubators

ABOUT THE DEPARTMENT OF CIVIL ENGINEERING

The Department of Civil Engineering at IIT Kanpur was established in 1961. Since its inception, the Department has been producing highly skilled professionals for industry, R&D organizations, and academia. It offers B.Tech., B.Tech.–M.Tech. Dual Degree, M.S. (Research), and M.Tech. programs as well as a Ph.D. program across all these disciplines.

The Department also offers an eMasters program in Sustainable Construction Practices and Project Management (SCPM). Its academic programs emphasize strong fundamentals, innovation, and interdisciplinary problem-solving to prepare students for real-world engineering challenges.

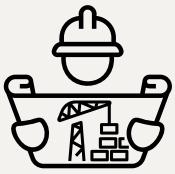

Alongside academics, the Department encourages co-curricular and extracurricular activities that foster teamwork, leadership, and organizational skills. Supported by distinguished faculty engaged in high-quality research, consultancy, and national-level initiatives, the Department continues to provide academic leadership while its alumni hold prominent positions in leading industries and academic institutions worldwide.

SPECIALIZATIONS OFFERED

Structural Engineering

Geotechnical Engineering

Transportation Engineering

Infrastructure Engineering & Management

GeoInformatics

Environmental Engineering

Water Resources Engineering

MESSAGE FROM
THE HEAD OF DEPARTMENT

Greetings!

PROF. RAJESH SATHIYAMOORTHY
Head of the Department
Department of Civil Engineering

It gives me immense pleasure to present the Placement Brochure of the Department of Civil Engineering, IIT Kanpur, for the academic year 2026–27.

Since its establishment in 1961, the Department has built a distinguished legacy of excellence in education, research, innovation, and professional service. As the civil engineering profession evolves to address the growing need for sustainable infrastructure, resilient communities, efficient transportation, responsible resource management, and technology-driven solutions, we remain committed to preparing students who can respond to these challenges with knowledge, creativity, and integrity.

Our rigorous academic programmes, state-of-the-art research facilities, and interdisciplinary learning environment provide students with a strong foundation in engineering principles and extensive exposure to contemporary tools and emerging technologies. Guided by accomplished faculty members, our students develop analytical ability, technical competence, problem-solving skills, and a research-oriented outlook. Their participation in internships, research projects, technical competitions, student organizations, sports, and cultural activities further nurtures leadership, teamwork, communication, and adaptability.

The graduates of our Department are equipped not only to solve complex engineering problems but also to contribute meaningfully across diverse sectors, including core engineering, consulting, infrastructure, technology, research, public policy, entrepreneurship, and management. I am confident that they will bring dedication, professionalism, and a spirit of innovation to every organization they join.

I warmly invite your esteemed organization to participate in our placement process and engage with our talented students. I am confident that you will find them well prepared to meet the demands of today's professional landscape and contribute meaningfully to your organization.
We look forward to welcoming you to IIT Kanpur and building a strong and enduring association.

STRUCTURAL ENGINEERING

Structural Engineering focuses on the analysis, design, and performance of structures that form the backbone of our environment. The specialization integrates advanced theory, computational tools, and experimental methods to create safe, resilient, and sustainable structures that can withstand diverse loads under extreme conditions.

COURSE CURRICULUM

- Earthquake Analysis and Design of Structures
- Finite Element Methods
- Structural Dynamics
- Engineering Mechanics
- Stability of Structures
- Experimental Methods

ONGOING RESEARCH

- Nonlinear Response History Analysis
- Damage-based earthquake risk evaluation for bridge piers
- Performance assessment of RC buildings under Earthquake shaking
- Seismic Response of RC Bridge Piers under Lateral Loading
- Finite Element Analysis and Computational Mechanics

TECHNICAL SKILLS

ETABS, OpenSees, SAP2000, SIMULIA ABAQUS, Staad Pro, MATLAB

LABORATORY FACILITIES

Structural Engineering Lab

Universal Testing Machine

TRANSPORTATION ENGINEERING

Transportation Engineering focuses on the planning, design, operation, and optimization of transportation infrastructure that connects communities and drives economic growth. The specialization integrates advanced engineering principles, computational tools, and intelligent technologies to develop safe, efficient, and sustainable transportation systems for the future.

COURSE CURRICULUM

- Traffic Engineering
- Analysis and Design of Bituminous Pavements
- Computational Tools for Transportation Engineering
- Traffic Simulation
- Pavement Materials
- Analysis of Transportation Systems

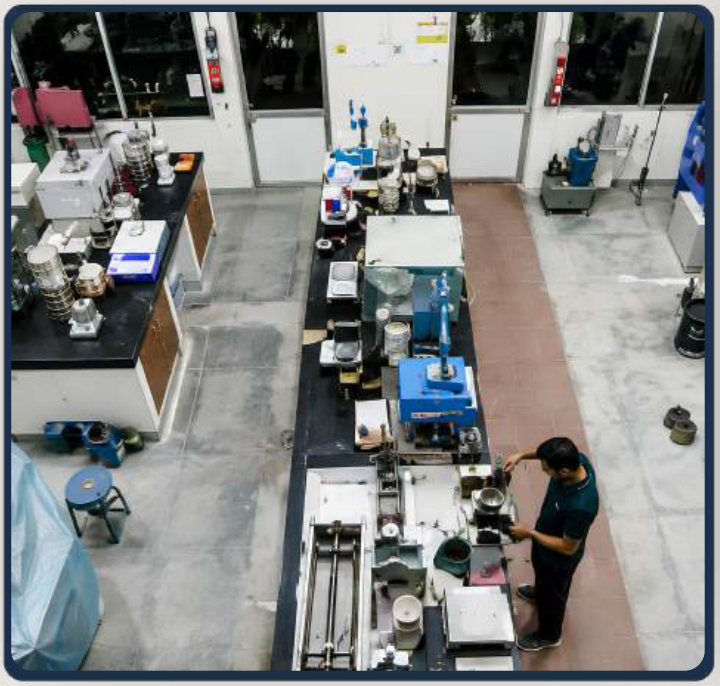

ONGOING RESEARCH

- Traffic flow theory and driver behaviour modelling
- Pavement analysis and design
- Intelligent Transportation Systems (ITS)
- Urban mobility and public transport systems
- Highway safety and geometric design
- Sustainable and low-carbon transport infrastructure

TECHNICAL SKILLS

RStudio, IITPAVE, MATLAB

LABORATORY FACILITIES

Transportation Lab

NSV

INFRASTRUCTURE ENGINEERING AND MANAGEMENT

Infrastructure Engineering and Management focuses on the planning, execution, and lifecycle management of large-scale civil systems that form the backbone of modern society. The specialization integrates advanced project controls, construction economics, and financial modeling to create sustainable, resilient, and cost-effective infrastructure that can meet complex societal demands under dynamic economic conditions.

COURSE CURRICULUM

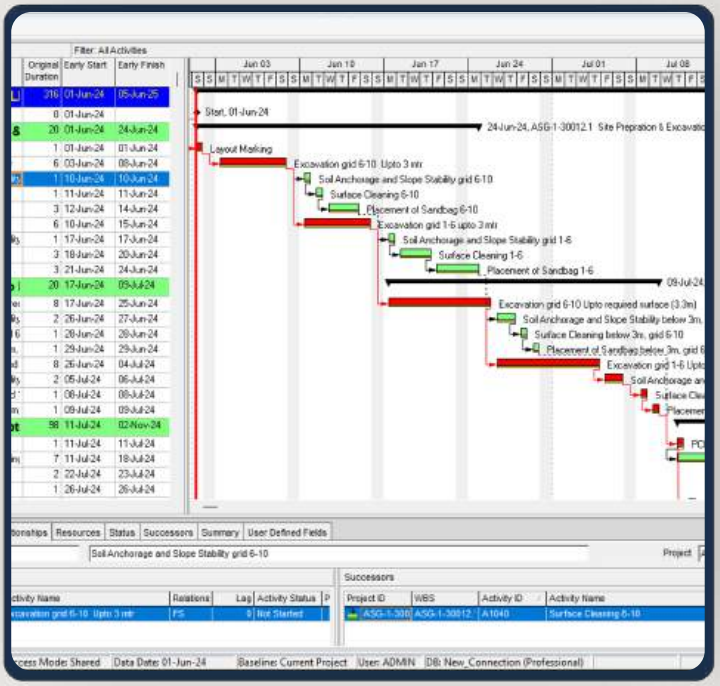

- Project Management And Control
- Contract Management
- Quality And Safety In Construction
- Construction Economics
- Infrastructure Financing
- Experimental Methods

ONGOING RESEARCH

- Infrastructure planning and project management
- Construction methods and equipment
- Smart cities and urban infrastructure systems
- Risk analysis and life-cycle assessment
- Infrastructure financing and public-private partnerships (PPPs)
- Sustainable development and asset management

TECHNICAL SKILLS

LABORATORY FACILITIES

Primavera P6

Experimental Methods

GEOTECHNICAL ENGINEERING

Geotechnical Engineering at IIT Kanpur focuses on the study of soil, rock, and groundwater for the safe and efficient design of infrastructure. The specialization covers foundation engineering, soil behaviour, ground improvement, slope stability, and geotechnical earthquake engineering, integrating advanced experimental and computational approaches.

COURSE CURRICULUM

- Foundation Analysis and Design
- Rock Mechanics
- Ground Improvement Techniques
- Foundation Dynamics
- Earthquake Engineering
- Constitutive Modelling

ONGOING RESEARCH

- Soil mechanics and foundation engineering
- Earth retaining structures and slope stability
- Ground improvement and geosynthetics
- Rock mechanics and tunneling
- Earthquake geotechnical engineering
- Unsaturated and expansive soils

TECHNICAL SKILLS

SIMULIA ABAQUS · GeoStudio · PLAXIS · MATLAB

LABORATORY FACILITIES

Field Test

Plate Load Test

ENVIRONMENTAL ENGINEERING

Environmental Engineering is a critical specialization within civil engineering that focuses on developing sustainable solutions to protect and improve environmental quality. At IIT Kanpur, the Environmental Engineering group addresses pressing ecological and public health challenges through advanced education and research.

COURSE CURRICULUM

- Physico-Chemical Principles and Process
- Ecological and Biological Principles and Processes
- Air Pollution and its Control
- Water Supply And Wastewater Disposal Systems
- Solid and Hazardous Waste Management
- Environmental Quality and Pollution Monitoring Techniques

ONGOING RESEARCH

- Water and wastewater treatment
- Solid and hazardous waste management
- Air pollution control and modeling
- Environmental impact assessment (EIA)
- Climate change adaptation and mitigation
- Environmental chemistry and microbiology

EQUIPMENTS

- Ion (IC) & Gas chromatography
- Automated Weather Monitoring System
- Elemental Analyzer
- High Performance Liquid Chromatography

LABORATORY FACILITIES

Environment Lab

Lab Equipments

HYDRAULICS AND WATER RESOURCES ENGINEERING

Hydraulics and Water Resources Engineering (HWRE) focuses on the analysis, design, and management of complex water systems that sustain human development and ecological balance. The specialization integrates advanced computational fluid dynamics, hydrological modeling, and climate impact assessment to develop sustainable, resilient, and efficient water infrastructure that can ensure water security and mitigate extreme weather events under rapidly changing environmental conditions.

COURSE CURRICULUM

- Water Resource Systems Analysis
- Hydrology & Hydraulics
- Flood Modelling
- Computer Methods in Hydraulics & Hydrology
- Hydrometry
- Fluid Mechanics Laboratory

ONGOING RESEARCH

- Design of hydraulic structures
- Forecasting of hydrologic extremes such as droughts and floods
- Irrigation scheduling for optimizing agricultural productivity
- Integrated management of societal and ecological water needs
- Water quality management of surface and subsurface water resources

TECHNICAL SKILLS

QGIS, ARDUINO, LINGO

LABORATORY FACILITIES

Primavera P6

MS Excel

GEOINFORMATICS

Geoinformatics focuses on the acquisition, modeling, and analysis of complex geospatial data and earth observation systems that drive informed decision-making for the natural and built environment. The specialization integrates advanced satellite remote sensing, geographic information systems (GIS), and spatial analytics to develop precise, sustainable, and data-driven mapping solutions that can address critical urban planning, resource management, and disaster mitigation challenges under dynamically changing global conditions.

COURSE CURRICULUM

- Geographical Information System
- Remote Sensing
- Global Navigation Satellite System
- Laser Scanning and Photogrammetry
- Satellite and Physical Geodesy
- Adjustment Computations

ONGOING RESEARCH

- Remote Sensing
- Geographic Information Systems (GIS)
- Digital Image Processing
- Synthetic Aperture Radar (SAR)
- LiDAR and Photogrammetry
- Global Navigation Satellite Systems (GNSS)

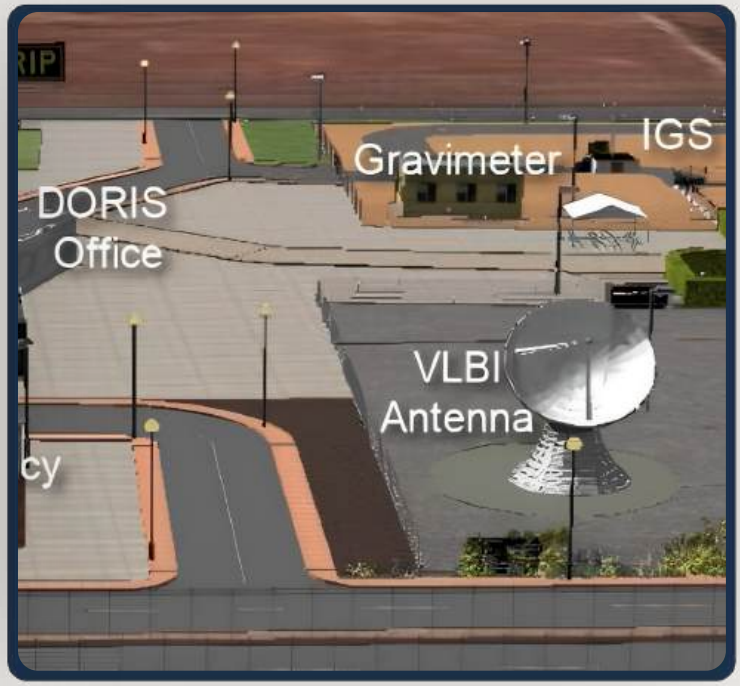

TECHNICAL SKILLS

ArcGIS, ASF, Bernese, Trimble, CloudCompare

LABORATORY FACILITIES

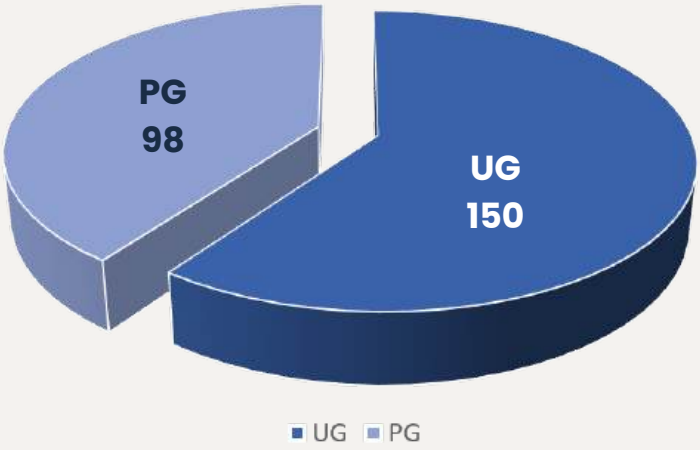

Geodetic Surveying Systems

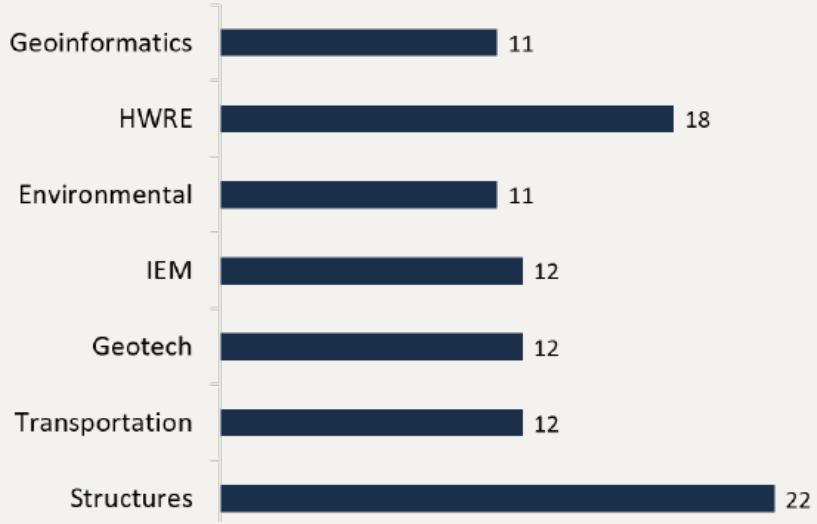

Geodetic Techniques

STUDENT DEMOGRAPHICS

Student Strength (UG & PG)

PG Student Demographics

SOCIETY OF CIVIL ENGINEERS (SOCE)

The Society of Civil Engineers, IIT Kanpur, presents **Sankalan,** its flagship Civil Engineering Conclave. This two-day event offers interactive workshops and expert talks by renowned professionals from India and abroad, real-world problem-solving competitions, and a cutting-edge technology exhibition.

Sankalan aims to foster innovation, collaboration, and knowledge exchange, establishing itself as a key platform shaping the future of civil engineering. With a blend of academic rigor and practical insights, the conclave serves as a launchpad for aspiring engineers to engage with emerging trends and industry leaders. It bridges the gap between classroom learning and industry practice, empowering participants to turn innovative ideas into impactful engineering solutions.

Participants also gain opportunities to network with peers, showcase their talents through technical challenges, and explore interdisciplinary applications of civil engineering. Sankalan is more than just a conclave - it's a celebration of engineering excellence, empowering the next generation of professionals to transform ideas into impactful solutions.

PLACEMENT PROCESS

INITIAL REGISTRATION
Register as a recruiter by Signing Up on the Recruitment Automation System Portal (RAS) by clicking here.

FILL FORM
Complete the Job Announcement Form (JAF) / Internship Performa (IP) on the aforementioned RAS Portal.

SHORTLISTED FOR INTERVIEW
After reviewing resumes & portfolios, the company submits the list of shortlisted students for the interview process

SELECTED STUDENTS
Companies provide the list of selected and waitlisted students at the end of their interview slot.

RECEIVE ACCEPTANCE
Placement office notifies the companies regarding the acceptance of selected students.

OFFER LETTER
The company sends the offer letter to the selected candidates consistent with JAF or IP.

DISTINGUISHED ALUMNI

Mr. Shashidhar Sinha
Designation: CEO of IPG Mediabrands India

Mr. Prabhat Singh
Designation: CEO and MD of Petronet LNG

Mr. Pawan Kumar
Designation: Mentor & Advisor, Angel Investor

Mr. Amit Kumar
Designation: Entrepreneur and Co-founder of NoBroker

Mr. Devendra Shukla
Designation: Founder of Innovative Technical Solutions

Mr. Udai P. Singh
Designation: Secretary General of ACECC

Mr. Rajendra Bhattarai
Designation: President of Clean Water Strategies

Late Mr. Satyendra Kumar Dubey
Designation: Former Dy. GM, NHAI

Late Mr. Yadupati Singhania
Designation: Former Chairman & Managing Director, J.K. Cement Ltd.
