Department of Economic Sciences

The Department of Economic Sciences at IIT Kanpur is a pioneering unit, the first independent economics department among all IITs. With 25 distinguished faculty members, the department excels in core areas like microeconomics, macroeconomics, and econometrics, while also leading research in agricultural, behavioral, financial, environmental, development, health, industrial economics, public policy, and beyond.

IIT Kanpur's Economics Department nurtures industry-ready graduates through rigorous academics, hands-on experience, and strong corporate engagement. Our students maintain a high placement record, securing coveted roles at leading consulting firms, analytics companies, banks, and corporates, along with competitive salary packages and significant career growth. Recruiters highly value our alumni for their strong analytical, quantitative, and problem-solving capabilities.

Key Highlights:

- First independent economics department across all IITs.
- Faculty strength of 25, covering a wide spectrum of classical and emerging economic fields.
- Offers BS/MS, MSc, and e-Masters programs tailored to diverse academic and career goals.
- Admissions through JEE-Advanced for undergraduate and GATE/JAM for postgraduate programs.
- High placement record with the average package for recent graduates standing at ₹21.59 LPA.

Department Head's Message

It is my great pleasure to introduce the Department of Economic Sciences at IIT Kanpur, a pioneering center dedicated to advancing knowledge in economics and preparing students for diverse and impactful careers.

Established as the first independent economics department within the IIT system, we pride ourselves on academic rigor, cutting-edge research, and a strong industry interface.

Our academic programs, ranging from BS/BS-MS and MSc degrees to doctoral research—are designed to develop robust quantitative and analytical skills.

We ensure that graduates are prepared to navigate complex economic and financial challenges with confidence and insight.

Currently, our department has 25 regular faculty members renowned for their expertise across classical and emerging economic fields. Additionally, we collaborate with distinguished visiting faculty members who enrich our teaching and research environment. This collective faculty strength fosters an atmosphere of excellence, innovation, and mentorship that empowers students to excel from their first day onward.

Over the years, our graduates have established a strong placement record, securing rewarding positions in consulting, finance, analytics, government organizations, and leading research facilities. Their success stories reflect the quality and relevance of our training.

On behalf of the Department of Economic Sciences, I warmly invite industry leaders, recruiters, academic collaborators to engage with us. Together, we can build lasting partnerships and contribute to shaping the future of economics education and practice.

Sohini Sahu

Professor

Dept. of Economic Sciences
Indian Institute of Technology Kanpur

Faculty Coordinator's Message

The Department of Economic Sciences at IIT Kanpur emphasizes the critical importance of quantitative economic education.

Our programs are meticulously designed to foster academic excellence and equip our students with a strong foundation of theoretical knowledge paired with practical skills.

Our students develop robust analytical abilities and become proficient in modern quantitative tools such as Python, R, MATLAB, and STATA. This training enables them to analyze complex data, derive insights, and make sound economic decisions.

Our department fosters a vibrant academic environment enriched by regular seminars, workshops, and collaborations with leading academics and industry experts. This culture of continuous learning and innovation ensures that our students remain at the forefront of economic research and practice, ready to meet evolving industry challenges.

Graduates from our department excel in diverse fields including finance, banking, consulting, research, and public policy. Their ability to integrate economic theory with practical application makes them highly sought-after professionals.

We also provide ample opportunities for research projects and hands-on experiences, allowing students to apply their knowledge in real-world settings and prepare effectively for their careers.

During the placement season, we invite recruiters and industry partners to connect with this talented pool of students. By hiring from IIT Kanpur's Department of Economic Sciences, you will gain access to candidates who are not only academically rigorous but also ready to contribute meaningfully to your organization.

Vasudha Jain

Assistant Professor
Dept. of Economic Sciences
Indian Institute of Technology Kanpur

Academic Programmes

BS/BS-MS

Duration: 4/5 Years

Eligibility & Admission: Admission is through the IIT-JEE Advanced

The program places strong emphasis on rigorous training in economics, mathematics, and statistics, while also offering exposure to a wide range of electives spanning finance, development, IT, and policy. In addition, students have the option to pursue a dual degree or seamlessly progress to the 1-year M.S. programme, providing both academic depth and flexibility in shaping their career paths.

Master of Science (M.Sc.)

Duration: 2 Years

Eligibility & Admission: Admission through GATE/JAM followed by a written test by IIT Kanpur.

The program provides strong training in applied economics, mathematics, statistics, econometrics, and IT tools with a focus on quantitative and analytical skills. It prepares students for careers in data-driven fields, research, consulting, and policy analysis, offering both academic depth and flexibility in shaping their career paths.

Ph.D.

Duration: 5 years

Eligibility & Admission: Admission is through the GATE/NET

The program offers intense training in both theoretical and applied economics, equipping students with a well-rounded understanding of economic principles and applications. It emphasizes high-quality research, opening pathways to both academic and industry roles. With a strong focus on interdisciplinary research, the program is particularly suited to those interested in the dynamics of a tech-driven economy.

Our Courses

Finance/ Quant

- 1.Foundation of Finanical Risk
- 2.Applied probability and statistics
- 3.Financial Econometrics
- 4.Introduction to Derivatives Pricing
- 5.Credit Risk Management and Modeling*
- 6.Investment Banking: Capital Market Operations*
- 7.Advanced Corporate Finance*

Data Science/ ML

- 1.Intro to Machine Learning*
- 2.Probabilistic Machine Learning*
- 3.Data Structures and Algorithms
- 4.Dynamic Optimization
- 5.Machine Learning for Economists
- 6.Applied Probability and Statistics
- 7.Game Theory Applications

Econometrics

- 1.Advanced Econometrics
- 2.Bayesian Econometrics
- 3.Financial Econometrics
- 4.Time Series Analysis
- 5.Panel Data Analysis
- 6.Economic Data Analysis
- 7.Applied Probability and Statistics

Core Economics

- 1.Microeconomics
- 2.Macroeconomics
- 3.Public Economics and Policy
- 4.Health Economics and Policy
- 5.Environmental Economics
- 6.Development Economics
- 7.Empirical Methods in Economics

Management/ Non-Core

- 1.Organization Structure and Design*
- 2.Strategic Management*
- 3.Introduction to Management
- 4.Marketing management*
- 5.Accounting and finance*
- 6.Operation management*
- 7.Project financing and Management*

Why Hire Us?

Strong Quantitative Foundation: Students are trained in advanced statistics, mathematics, and economic theory, making them adept at handling complex datasets and analytical models.

Proficient in Industry Tools: With hands-on experience in Python, R, Stata, SQL, and data visualization, our students are job-ready for analytics, research, and tech-driven roles.

Diverse and Dynamic Profiles: Our student body includes individuals from engineering, sciences, and economics, offering multidisciplinary perspectives to business problems.

Research-Oriented Mindset: Exposure to rigorous academic research fosters critical thinking and the ability to interpret data with context and clarity.

High Adaptability & Aptitude: With strong logical reasoning, aptitude, and problem-solving capabilities, our graduates thrive in fast-paced, data-intensive environments.

Events & Seminars

The Department of Economic Sciences maintains a vibrant academic environment through regular seminars, colloquia, and public policy lectures featuring renowned scholars, policymakers, and industry experts from India and abroad. These events provide students with exposure to advanced research, real-world economic issues, and diverse perspectives.

Public policy lectures by senior professionals like retired IAS officers and RBI officials have offered insights into policy implementation, financial stability, and India's development path toward 2047.

Over the past year, the department has hosted talks by leading academics such as Prof. Ashish Goel (Stanford University), Prof. Anil Bera (University of Illinois), Dr. Nishant Ravi (ISB), Dr. Nafisa Lohawala (Resources for the Future, USA), and Prof. T.E.S. Raghavan, among others. The topics covered span a wide range of disciplines—including political economy, environmental policy, Bayesian modeling, firm dynamics, financial regulation, and humanitarian economics.

These engagements complement academic coursework by encouraging critical thinking and informed debate. They also create valuable opportunities for students to interact directly with thought leaders and stay updated on current research and policy trends.

The department's active seminar culture reflects its commitment to academic excellence, policy relevance, and the holistic development of its students.
